

MUST HAVES FOR MEN IN 2016

Pantone Inc. is a company best known for its Pantone matching system, a propriety color space used in a variety of industries. Every year, the corporation announce the color of the year, in 2015 the color was Marsala; it's rooted from a blend of the colors red, and brown.

For 2016, Pantone selected two colors that demonstrate and reflect connection, and wellness, as well as a soothing sense of order and peace. Those two colors are Rose Quartz, and Serenity. Rose quartz is derived from the warmer, embracing rose tone, and Serenity represents the cooler tranquility of the blue color.

Perle Magazine picks the must have items for the dapper, stylish gent in the two toned colors of the New Year.

Regardless of the chosen colors for the new year, Black never fades & is always in style - be it an all black outfit, an all black closet you will surely be entitled to a statement making appearance.
